

Project Development Phase

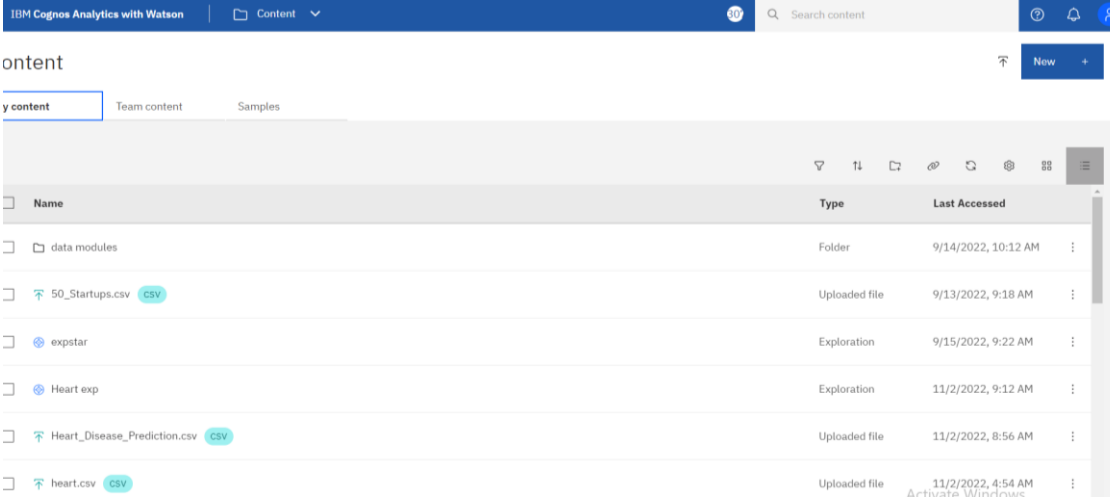

Model Performance Test

Date	17 November 2022
Team ID	PNT2022TMID49830
Project Name	Visualizing and Predicting Heart Diseases with an Interactive Dashboard
Maximum Marks	10 Marks

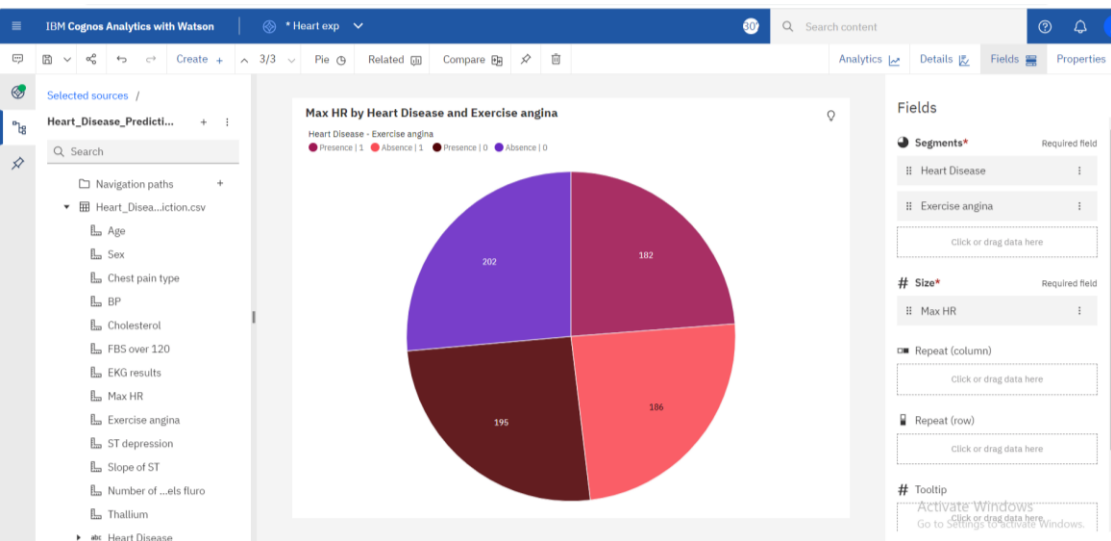

Model Performance Testing:

Project team shall fill the following information in model performance testing template.

S.No.	Parameter	Screenshot / Values
1.	Dashboard designs	<p>No of Visualizations / Graphs – 1 dashboard tabs with 7 visualizations</p>  <p>in each dashboard</p>
2.	Data Response	<p>It hides certain aspects of the visualization if the size is limited, to maximize the space that is available to data.</p> <ul style="list-style-type: none"> • Its Create with relationship with another explorations • There was another data exploration with various continuous values , those values was grouped a
3.	Dataset collection and Modification	<p>As per project ideation the dataset are collected from smartwatches by the and work the dataset through process.</p>

		
--	--	--

4.	Utilization of Data Filters	In Cognos Dashboard utilization of the filtration to be filtered of all explorations of the dashboard
----	-----------------------------	---

5.	Effective User Story	<p>No of Scene Added 1 stories with 2-3 visualizations in each story</p> 
----	----------------------	--
